

SYVID TUTORIAL- How to create a LinkedIn account

Follow these simple steps below:

1. Go to <https://www.linkedin.com/> on your browser.

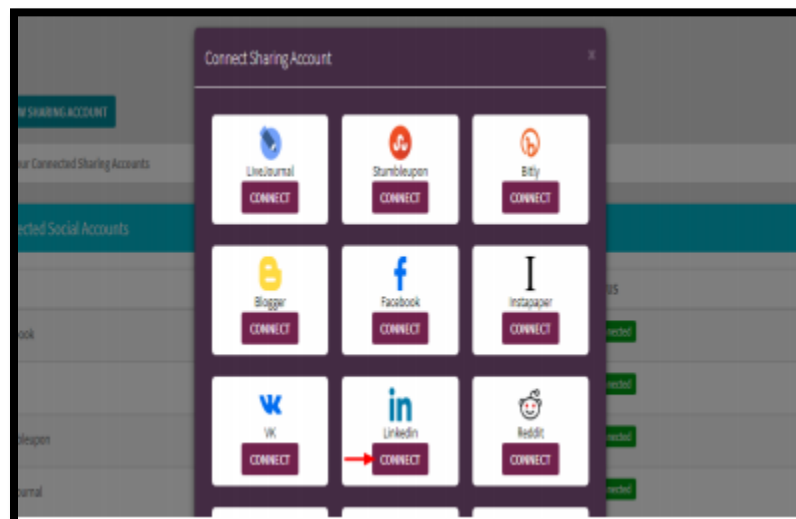

2. You will then be asked to fill in some of your information (First name, Last name, Email and Password).
3. After completing, click on Join now. Then you'll be taken to your "LinkedIn" account. You're all set to explore!
4. Later you'll be asked to add your picture, your educational background, professional experience, skills, achievements, etc. It may look like a simple resume at first glance, but LinkedIn also allows adding documents, videos, images, and publications – anything that adds to your qualifications and professionalism.

SYVID TUTORIAL- How to connect LinkedIn in Syvid

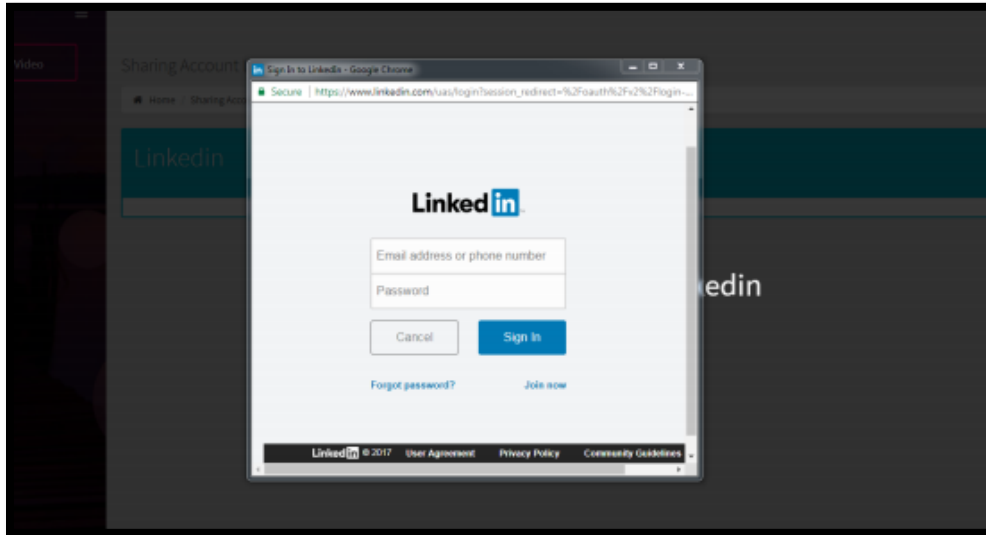

Follow these simple steps below:

1. On the Syvid dashboard, click on Video Account tab then choose the "CONNECT" LinkedIn option.

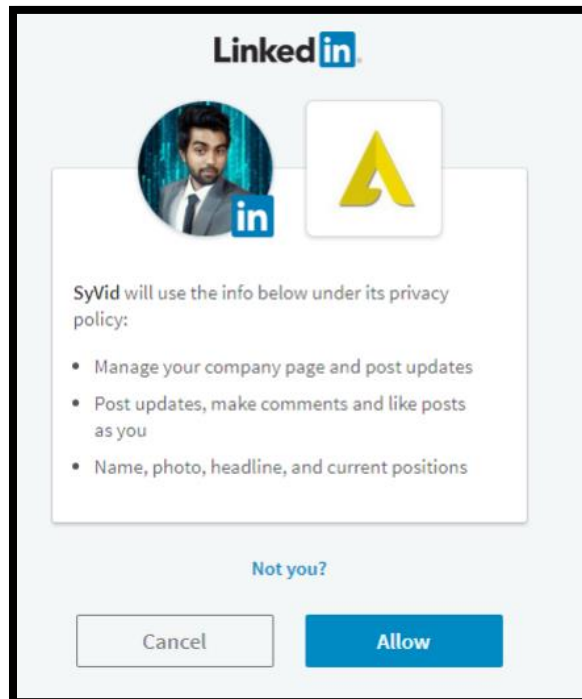

2. After clicking on Connect, a pop window will appear.
3. Enter your account credentials then click on Sign In.

4. After logging in, a permissions page will appear and you need to click on Allow.

5. Close the window then you will see the status as Connected with the network application.
