

SYVID TUTORIAL- How to create a Pocket account

Follow these simple steps below:

1. Go to <https://www.getpocket.com/> in your web browser.

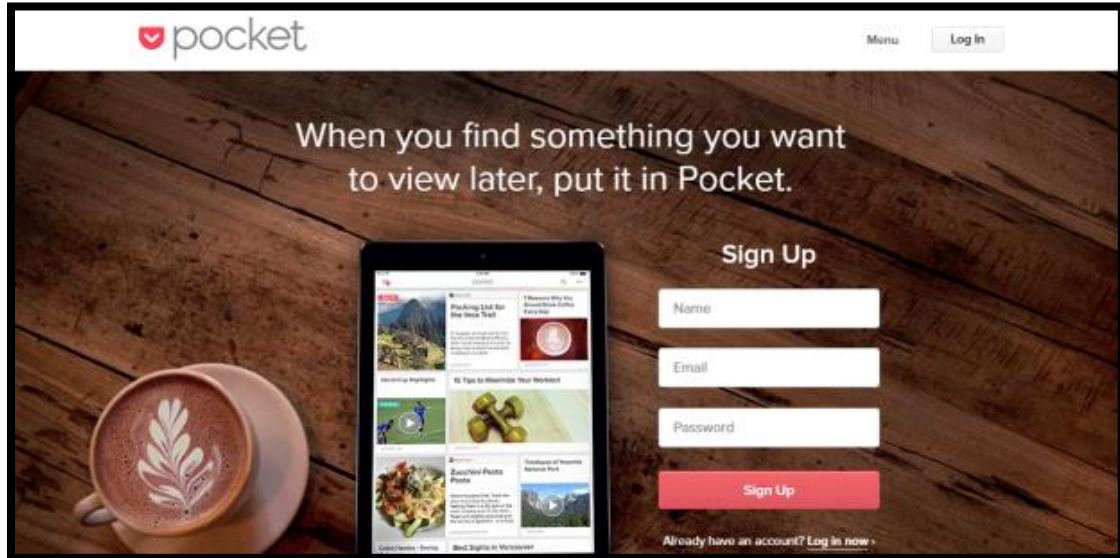

2. Sign up to Pocket by clicking on the Sign Up with email.

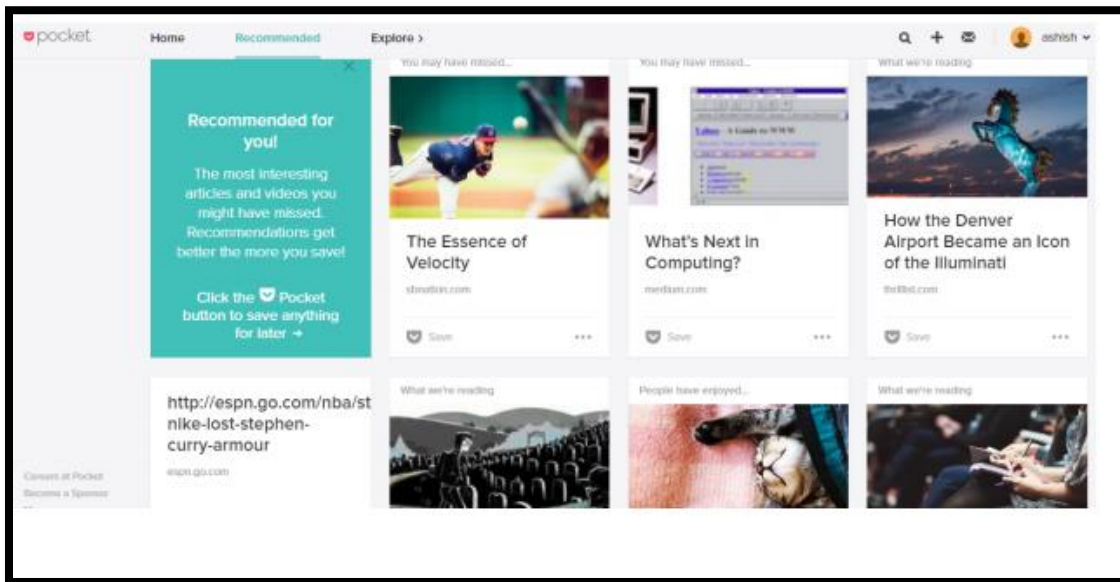

You can sign up for Pocket using your Google account, but since not everyone has one, we'll show you how to sign up using your email account instead.

- Simply click each of the three text boxes here and type in your name, email address, and password for your account. When you're done, click Sign Up.

- Once done, you'll be directed to your own personal interface of pocket. You're all set to explore!

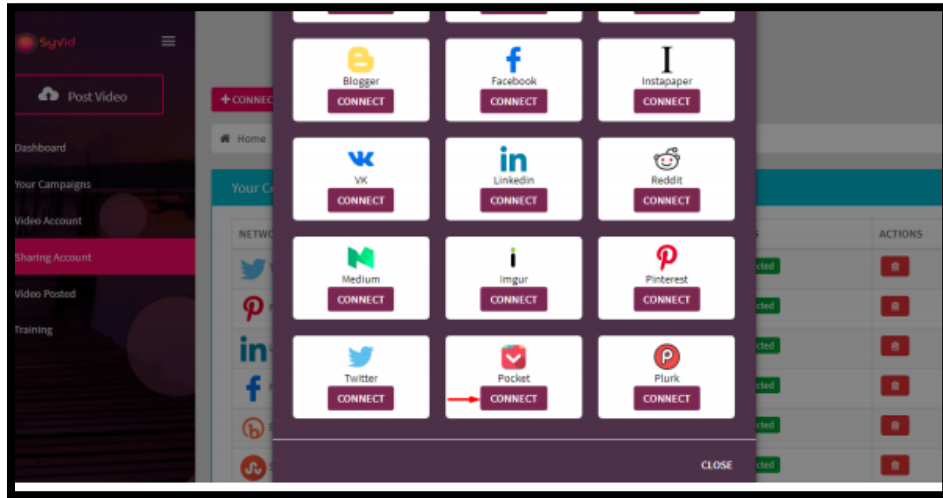

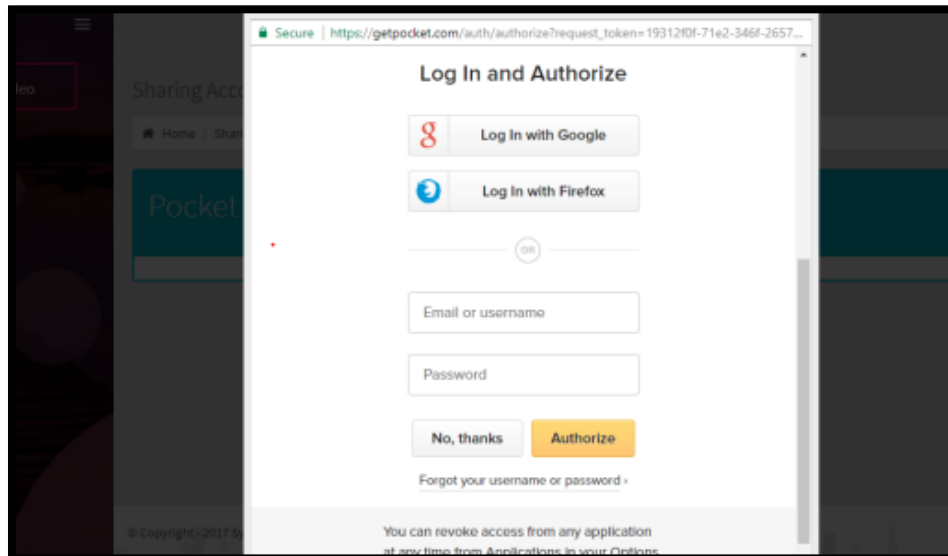

SYVID TUTORIAL- How to connect Pocket to Syvid

Follow these simple steps below:

1. On the Syvid dashboard, click on Video Account tab then click the “CONNECT” Pocket option. After clicking on connect a pop window will appear.

2. Enter your credentials and click on **Authorize**.

5. Once successful, you will see status as connected with the network in the Syvid Application.
